

ARCTIC CHANGE 2014

8-12 DECEMBER - OTTAWA CONVENTION CENTRE - OTTAWA, CANADA

Poster Presentations

Presenting Author	Poster Number	Title
Aliabadi, Amir Abbas	73	Air quality monitoring in communities of the Canadian arctic during the high shipping season with a focus on local and marine pollution
Allard, Michel	376	Permafrost International conference advertisement
Ardyna, Mathieu	139	Vertical structure and environmental forcing of phytoplankton communities in the Beaufort Sea: Validation and application of novel satellite-derived phytoplankton indicators
Arruda, Sean	279	Spatial and Temporal Variability of Leaf Area Index and NDVI in a Sub-Arctic Tundra Environment
ASA	377	ASA Interactive Outreach Poster
Atchison, Sheila	122	Occurrence and characteristics of Arctic Skate, <i>Amblyraja hyperborea</i> (Collette 1879) (Rajidae), in the Canadian Beaufort
Atkinson, David E	76	Use and analysis of community and industry observations of adverse marine and weather states in the Western Canadian Arctic: A MEOPAR Project
Atlaskina, Ksenia	346	Characterization of the northern snow albedo with satellite observations
Aubé-Michaud, Sarah	29	A permafrost temperature regime simulator as a learning tool for secondary school Inuit students
Awan, Malik	12	Wolverine: a traditional resource in Nunavut
Bagnall, Ben	26	Spatial variability of hazard risk to infrastructure, Arviat, Nunavut
Baikie, Gail	38	Using a media scan to reveal disparities in the coverage of and conversation on issues of importance to local women regarding the muskrat falls hydro-electric development in Labrador
Balasubramaniam, Ann	62	Beyond Data Analysis: Learning to framing research in policy relevant formats
Barrette, Carl	373	The IRIS Umbrella report: toward a better understanding of the changing Canadian Arctic climate
Barrio, Isabel C	247	Measuring herbivory in northern and alpine environments: towards a standardized protocol
Beardsell, Andréanne	245	Factors affecting nest occupancy and reproductive success of rough-legged hawks: a trade-off between predation risk, microclimatic conditions and nest stability?
Bégin, Paschale N.	298	Life in freshwater at the top of Nunavut: Limnological studies at Ward Hunt Lake (latitude 83°N)
Bégin, Yves	252	Simulating latitudinal bioclimatic gradient by mean of large lakes cooling effects on their edge hinterland
Bellehumeur-Genier, Olivier	322	Estimation of patch sizes in marginal discontinuous permafrost, Yukon Territory and Northern BC.
Benkert, Bronwyn	368	Comics, communities and geoscience – Science communication approaches from the Yukon Research Centre
Bennett, Robbie	91	Geohazard analysis of the Arctic Inter-island Channels
Bergsma, Bonnie	10	Effects of Resource Development on Caribou Habitat and Caribou Migration interpreted through Traditional Knowledge
Beveridge, Leah	72	Shipping in the Canadian Arctic: Answering the Questions of Who.
Bevington, Alexandre	311	Between physical and statistical modelling of mountain permafrost
Bienhold, Christina	130	Changes in a benthic ecosystem on the Laptev Sea continental margin between two contrasting years (1993 and 2012)
Binnington, Matthew	170	Measuring Changes to Nutrient and Persistent Organic Pollutant Bioavailability from Preparing Marine Mammal Blubber for Human Consumption
Bishop-Williams, Katherine	55	Seasonal Changes in Prevalence of Acute Gastrointestinal Illness in Rigolet, Nunatsiavut, Canada
Blais, Marjolaine	144	Changes in phytoplankton taxonomic composition over time in the Canadian Arctic Ocean
Blasco, Steve	90	Evidence for glacial ice streams in eastern Parry Channel and adjoining marine channels, Canadian Arctic Archipelago.
Blasco, Steve	93	Late Wisconsinan-Holocene evolution of the Canadian Beaufort Shelf and upper continental slope

Blaser, Amy	213	Seasonal dynamics of ecosystem carbon exchange for a wet sedge vegetation community, Melville Island, NU
Blouin, Marc	83	Reflections on the northern home
Bobrik, Anna	334	Spatial and temporal variability of CO ₂ efflux of frozen peatland soils at fine scale: the relationship with permafrost conditions and the composition of soil organic matter (Russia, calm site r1)
Bolduc, Christopher	315	Thermal dynamics in a High Arctic river
Bossi, Rossana	230	Atmospheric concentrations and deposition of halogenated compounds at Villum Research Station, North Greenland
Boulanger-Lapointe, Noemie	276	Mapping berry productivity and animal activity in Nunavut: one step toward understanding the place of berries in the Arctic biocultural system.
Brasseur, Philippe	320	D/H and 18O/16O evolution during vapour exchanges between the atmosphere and ice-bearing permafrost in the cold-dry environments of Earth and Mars
Brattås, Marianne	167	Dietary benzo[a]pyrene induces changes in the hepatic proteome of polar cod (<i>Boreogadus saida</i>)
Brattås, Marianne	171	Alterations in the hepatic proteome of polar cod (<i>Boreogadus saida</i>) after dietary exposure to benzo[a]pyrene
Brehaut, Lucas	274	Evaluation of recent vegetation productivity trends using high resolution remote sensing and dendrochronology in the Yukon Territory, Canada
Brewster, Jasmine	146	Defining Arctic fish food web structure using dietary biomarkers in the Tarium Nirvutait marine protected area
Brouard, Etienne	205	Landform-sediment assemblages in a fjord, shelf trough and trough-mouth fan system: Scott inlet and trough (NE Baffin island, Canada)
Buchhorn, Marcel	339	Effects of 45 years of heavy road traffic on permafrost and tundra along the Spine Road at Prudhoe Bay, Alaska
Buckley, Emma	208	Spatial and temporal patterns of net carbon exchange for a polar semi-desert vegetation community on Melville Island, NU
Budden, Emily	53	Supporting Remote Health Care Provision in a Rapidly Changing Climate: A Case Study from Nunatsiavut, Labrador
Buell, Mary-Claire	271	Tundra carbon cycling from ecosystems to the landscape scale: A synthesis of ongoing terrestrial and aquatic research in a Canadian low arctic watershed
Bulger, Cara	303	Organic Carbon Dynamics in Permafrost Thaw in the Western Canadian Arctic
Burgers, Tonya	156	Local influences on the rate of air-sea CO ₂ exchange within northern Baffin Bay
Burt, Alexis	227	Temporal trend studies of trace metals and organic contaminants in Mackenzie river burbot, Fort Good Hope, NWT (1985-2014)
Byrnes, Jessica	81	Acceptable Housing in the Northern Territories and Associated Reductions in Youth Physical Aggression
Canadian Museum of Nature	375	Canadian Museum of Nature
Candlish, Lauren	102	A comparison of radiosondes, on ice meteorological towers and re-analysis and forecast winds over sea ice in the Canadian High Arctic.
Carlsson, Anja	253	Ten years of the community-based Wildlife Health Monitoring Program in the Sahtu: Looking back and moving forward
Carter, Johnathan	312	Potential Effects of Climate Change on Landscape Stability and Community Infrastructure in Kugluktuk
Charette, Joannie	143	Changes in phytoplankton biomass and production from the Kennedy Channel ice edge to northern Baffin Bay in summer 2014
Chauvaud, Laurent	378	BB POLAR
Chen, Jing	364	The effect of climate change on surface air radioactivity concentrations in the Arctic
Chen, Yitong	3	China's Tentative Participation in the Arctic Affairs and Its Policy Orientation
Chevallier, Clément	265	Estimating the age structure of an arctic carnivore population by comparing tooth wear and cementum line
Choy, Emily	116	Examining the Diet and Diving Physiology of Beaufort Sea beluga whales
Clyde, Nikolas	254	The influence of a long-lived sea duck on the community ecology of islands in the Canadian Arctic
Crabeck, Odile	113	Sea ice as a potential interface for methane storage and transformation
Crevecoeur, Sophie	211	Molecular detection of methanotrophs and methanogens in permafrost thaw ponds: Implications for greenhouse gas emissions from subarctic waters
Cuerrier, Alain	4	Inuit perception of marine organisms: from folk classification to food consumption
D'Arcy, Fiona	225	Stable and radiocarbon isotope analysis to determine presence of biodegradation in hydrocarbon contaminated site, Old Crow, Yukon
Daley, Kiley	67	Assessing Exposure Pathways and Human Health Risks related to Wastewater Treatment in Inuit Communities

Davesne, Gautier	323	Factors controlling surface temperature distribution over the Mont Jacques-Cartier plateau and the recent evolution of its alpine permafrost body, the southernmost in Eastern Canada
Davoren, Gail	165	Spawning ecology of a sub-Arctic forage fish, capelin (<i>Mallotus villosus</i>), in the eastern and western Canadian Arctic
Dawson, Jackie	74	Arctic Marine Use and Transportation Project (AMUT)
Day, Lindsay	23	Where two rivers meet: Integrating Indigenous and Western knowledge systems for improved water management and research in the North
de Leon, Kristine	317	Microbial diversity and functional potential in High Arctic permafrost soil from Spitsbergen, Northern Norway
de Moura Neves, Bárbara	131	Abundance and size distribution of the deep-water sea pen <i>Umbellula cf. encrinus</i> (Octocorallia: Pennatulacea) from ROV video transects and longline bycatch in the Eastern Arctic
de Rham, Laurent	244	A Program to Evaluate Changing Northern Lake Ice Regimes
Dearborn, Katherine	275	Landscape-scale variation in plant community composition across Yukon treelines
Deering, Robert	94	Nature and triggers of submarine mass failure in coastal waters of southeastern Baffin Island, Nunavut
Delaforge, Aurélie	134	Seasonal succession of under-ice phytoplankton in Cambridge Bay, Nunavut
DeRepentigny, Patricia	109	Finding the source regions of sea ice melting in the marginal ice zone
Deschamps, Charles-Edouard	88	Chronostratigraphy challenges and climate variability studies in the Western Arctic Ocean
Desiège, Pierre-Arnaud	203	A new deglacial and drainage model of the Pingualuit Crater Lake basin, Nunavik (Canada)
Devine, Brynn	161	Thermal habitat preference of Greenland halibut (<i>Reinhardtius hippoglossoides</i>) in the northeast Arctic
di Cenzo, Peter	264	Development of a Fully-automated Arctic Lake Monitoring System for Hydro-ecological Research Applications
Diaz, Aura	92	Interruption of Spring – Summer Transition of Landfast Sea Ice in Dease Strait, Nunavut, by Late Season Snow Storm
Dodd, Emma	197	An Investigation into the Impact of using Various Techniques to Estimate Arctic Surface Air Temperature Anomalies
Drummond, James	1	Arctic Communications near the Geostationary Limit
Drummond, James	16	Why PEARL?
Dubé, Louis	27	What is the best way to assess attentional functions in children exposed to environmental contaminants?
Duchesne, Caroline	289	20 Years of Active Layer Monitoring in the Mackenzie Valley, Northwest Territories.
Dufour, Karolane	125	Intraguild predation in Arctic and Subarctic copepods communities
Dumont, Dany	105	The North Water polynya ice bridge
Dvornikov, Yury	330	Process of Organic transport in Lakes of the YAmal Region (POLYAR)
Eastwood, Rosemary	110	First Observations of Oceanographic Conditions under the Landfast Sea Ice in Southeast Hudson Bay
Ednie, Mark	307	Results from community-based permafrost monitoring in Nunavut
Ednie, Neil	30	Accessible Science: A Hands on Field course for Northern Students
Eerkes-Medrano, Laura	369	Community observations of slush-ice berm processes in coastal Western Alaska.
Elliott, Ashley	127	Mycosporine-like amino acids in sea ice covered Arctic waters
Elliott, Claire	212	Relating Arctic tundra – atmosphere CO ₂ exchange to satellite-derived NDVI at Daring Lake, NT.
Else, Brent	154	Exchange of dissolved oxygen, salt, heat, and momentum at the ice-ocean interface during late winter
English, Michael	345	Assessing how changing snowpack characteristics may be related to the decline of the Bathurst Caribou herd.
Ermokhina, Ksenia	249	Overview of the West Siberian component of the Arctic Vegetation Archive
Evans, Marlene	228	Anadromous char as an alternate food choice to marine animals: a synthesis of hg and persistent organic pollutant concentration trends.
Evering, Brigitte	6	Curriculum Development and Delivery for Science–Traditional Knowledge Learning on Environmental Issues in the North: A Review of the Yukon College Source Water Protection Course Experience
Fagan-Garcia, Katharine	43	Community-driven research on <i>Helicobacter pylori</i> infection in Arctic Canada: Association of bacterial genotypes with disease manifestations
Falardeau, Marianne	201	Impacts of climate change and industrial activities on arctic marine food web and ecosystem services sup

Ficko, Sarah	58	Tundra Reclamation: Developing Techniques For Shrub And Lichen Revegetation At A Diamond Mine In NWT
Fishback, LeeAnn	256	The interactive effects of fish predation and conspecific density on survival and growth of wood frog tadpoles in a subarctic wetland
Fissel, David	106	Variability of the Thickness and Deformation of Pack Ice in the Canadian Beaufort Sea as Measured from Below with a Dense Array of Upward Looking Sonar Instruments
Flynn, Nadele	77	Legacy of ecological land surveys in northern Yukon: past, present and future
Fontaine, Marielle	290	Effect of forest fire disturbances on biogeochemical cycling in active layer and permafrost soils, Aastern Mackenzie delta, NWT, Canada
Ford, James	48	Inuit Traditional Knowledge for Adapting to the Health Effects of Climate Change
Forest, Alexandre	121	Dynamics of the bottom boundary layer on the upper slope of the Mackenzie Shelf: linkages between surges in the shelf-break current, seabed erosion and sediment dispersal
Fortune, Sarah	115	Fine-scale bowhead whale tagging in the Eastern Canadian Arctic.
Fortune, Sarah	117	Eastern Canada-West Greenland bowhead whale diet and foraging behaviour in Cumberland Sound, Nunavut.
Foster, Kristyn	316	Vegetation and Soil Controls on Active Layer Depth beneath Tall Shrubs in the Low Arctic Tundra
Fransson, Agneta	96	Effect of glacial drainage water on the CO2 system and ocean acidification state in an Arctic tidewater-glacier fjord - two contrasting years
Frei, Esther R.	270	A longitudinal comparison of reproductive success of High Arctic tundra plants in response to long-term experimental warming
Friddell, Julie	40	Sharing Data for Creating Information and Knowledge at Canada's Polar Data Catalogue
Friscourt, Noémie	136	Structure and functional role of meiofaunal benthic communities in the Arctic
Frost, Gerald	331	Regional patterns of ice-wedge degradation since the mid-20th century across northern Alaska
Furey, Greg	162	Development of a new emerging Porcupine crab (<i>Neolithodes grimaldii</i>) fishery in subarctic waters. The importance of understanding parasite induced natural mortality and negative
Gagnon, Samuel	299	Measurement of Permafrost Greenhouse Gas Emissions through a New Automated System of Closed Chamber
Gaillard, Blandine	129	Bivalve <i>Astarte</i> spp. in a subarctic fjord: Could the shell be used as bio-archives of primary production and the diet characterized from tissues?
Galipeau, Philippe	246	Habitat selection of Arctic-nesting Rough-Legged Hawk and Peregrine Falcons breeding near the Baffinland Iron Mine on Baffin Island, Nunavut
Gantner, Nikolaus	166	Using stable isotopes to trace mercury transfer across a salinity gradient within the Husky Lakes, Northwest Territories, Canada
Garland, Anne	63	Historical Ecology for Risk Management: Youth Sustainability (HERMYS)
Garneau, Marie-Ève	141	Importance of primary production by sea-ice algae in a changing arctic
Ge, Le	267	The Feedback of Shrub Expansion to Soil Carbon Emission in Arctic Tundra
Geilfus, Nicolas-Xavier	155	Inorganic carbon dynamics of melt pond-covered first year sea ice in the Canadian Arctic
Gennaretti, Fabio	372	Toward climate change scenarios for Canadian Arctic coastal zones with more realistic inter-variable dependence
Ghahremaninezhadghar elar, Roghayeh	359	Atmospheric DMS contribution in aerosol growth and activation in the Arctic
Gibson, Daniel	250	Phylogenetic host-parasite specificity in aphids of Churchill
Gignac, Charles	101	ICEMAP250 : high-resolution sea ice maps using MODIS
Giraudeau, Jacques	342	Assessing recent changes in the dynamics of the poleward Atlantic water flow off western Norway from a fjord sediment archive.
Gong, Wanmin	362	Modelling regional air quality in the Canadian arctic: impact of north American wildfire and arctic shipping emissions
Goni, Miguel	184	Organic Matter Accumulation in Sediments from Hudson Bay - A High-Resolution Record of Climate/Watershed Processes over the Late Holocene
Gourdal, Margaux	152	Are melt ponds a significant source of dimethylsulfide for the Arctic atmosphere in spring?
Goyens, Clémence	176	On the way to improving moderate spatial resolution ocean color data nearby highly productive Arctic ice-edges
Grandmont, Katerine	297	Landscape hazards mapping for climate change adaptation planning in Yukon: Impact of land cover disturbances on permafrost landscapes
Greenwood, Mark	68	Characterizing Receiving Water Impacts Associated with Municipal Wastewater Discharges in Nunavut
Grigor, Jordan	86	Arrow worm ecology in the Canadian Arctic

Hanisch, Jessica	306	Remobilization of dissolved organic carbon in a boreal forest-peatland landscape under the influence of rapidly degrading discontinuous permafrost
Hansen-Craik, Kayla	142	Beluga spatial and temporal occurrence and habitat use within Kugmallit Bay, Northwest Territories, Canada
Harazono, Yoshinobu	210	Methane exchange in a poorly-drained black spruce forest over permafrost observed with the eddy covariance technique
Harder, Silvie	295	Interpreting carbon fluxes from a spatially heterogeneous peatland with thawing permafrost: Scaling from plant community scale to ecosystem scale
Hata, Yukie	98	Anisotropic internal thermal stress in landfast sea ice from the Canadian Arctic Archipelago
Hayes, Amos	39	Novel Requirements and Solutions for Diverse Data Management in the Arctic
Heim, Birgit	293	How do lake systems determine lateral fluxes of carbon in tundra permafrost landscapes ?
Hermanutz, Luise	21	From traditional knowledge to sustainable enterprise: bridging Labrador Inuit use of <i>Rhodiola rosea</i> to foster community capacity
Hickman, Jennifer	309	Seasonal Evolution of Active Layer Formation in Peat Plateaux and Implications for Shallow Groundwater Carbon Chemistry
Hobbs, Laura	180	Environmental controls on winter diel vertical migration behaviour in the high Arctic using eight years of acoustic data
Hoeberechts, Maia	20	Ocean Networks Canada's Engagement in Arctic Community Ocean Observation
Højlund Pedersen, Stine	348	Quantifying episodic snowmelt events in Arctic ecosystems
Holloway, Jean	301	Modeling landscape susceptibility to permafrost disturbances reveals differential patterns related to subsurface water pressurization
Holzman, Sara	18	Community engagement practices in Nunavut: how to share climate change information
Hornby, Claire	178	Spring Habitat Use of Beluga Whales in the Southeast Beaufort Sea
Hoshi, Kazuhira	199	Influence of Northern Hemisphere sea-ice extent variability on atmospheric circulation
Hotaek, Park	300	A retrospective analysis of snow-cover impacts on permafrost thermal regimes
Houssa, Fadoua	288	Dynamic hydrological modeling of permafrost watersheds using PHM model
Huang, Yannan	324	An investigation of human pathogen removal in a single cell wastewater stabilization pond in arctic Canada
Humphrey, Rachel	282	Investigating the controls on soil moisture spatial variability for assessing the effectiveness of microwave remote sensing of active layer soil moisture dynamics over the Canadian arctic tundra
Hurley, Michael	160	Investigations into the commercial potential of a Sub-Arctic population of Porcupine crab (<i>Neolithodes grimaldii</i>): establishing information on life history characteristics key to effective management.
Hussain, Abid	34	Understanding the mountain food security in the face of climatic and socioeconomic changes in the Hindu-Kush Himalayan region
Hynes, Kristin	13	Fisheries co-management in the Inuvialuit Settlement Region
Ibarguchi, Gabriela	57	The Arctic Observing Summit: harnessing knowledge and guiding the future for designing, optimising, and implementing an Arctic observing network for environmental change adaptation
Iken, Katrin	135	Strong community turnover in epibenthos composition along and across the shelf and slope of the central and eastern Beaufort Sea
